Many lines have been written to describe Tobago. All fail to capture what it is that makes this island so special. For years Tobago has been called the 'isle of Robinson Crusoe' the perfect tropical isle that captivates its visitors. Imagine an island that has long stretches of soft sandy beaches caressed by the turquoise waters of The Caribbean, blue skies, balmy breezes and tropical sunshine. 'Pirates and castaways, merry men and fair maids, happy faces and bronzed bodies', this is Paradise...

The warmth and friendliness of the people, its multi-cultural heritage and its lush green Main Ridge Forest Reserve (The oldest legally protected forest in the world dating back to 1766), leave you wondering what next? and yes, there's more; the mystery of its folklore, the beauty and serenity of its land and the ecological diversity that make it so unique a place, that you must visit at least once in your lifetime.
